

The completed kiosk assembled on site.

Art FX Retail Kiosk

This was a custom kiosk project for a retail space.

This structure used tab lock style, allowing laminated wood pieces to be butted neatly against each other.

An example of the tab lock (or puzzle lock) style

This is just one of the over 88,000 projects we've completed for over 6,000 customers in the last decade.

**How can we help you
with your next project?**
