

Ironman Experience

Hong Kong Disney

Custom Steel Doors

These were large, very custom built doors built for the Ironman Experience, Hong Kong Disney.

These doors were designed to appear as part of the wall and were covered in visual panels, but were completely operational.

This is just one of many projects that we've done since 1966 in our Steel Door Manufacturing Group.

How can we help you with your next project?

Contact us to find out more information!
